

Visiting Nurse Scale

Model SR241

The SR241 Portable Infant/Adult Scale is a unique portable system that offers the versatility of weighing infants, toddlers, and adults on one lightweight and moisture-resistant system. Weighing in at a mere seven pounds, this scale is perfect for visiting nurse applications. Its sturdy construction and inherent durability also lends itself well for use in pediatrician or physician offices.

Adult Mode

LIGHTWEIGHT

Weighs only 7 pounds. Built-in carrying handle.

HEAVY-DUTY

Injection molded out of high strength, impact-resistant plastic.

WEATHER TIGHT

The entire scale is designed with the visiting nurse in mind. So a little rain or snow is just fine.

EASILY CLEANED

There are no hidden crevices or dirt-catching seams. The entire scale can easily be cleaned to mitigate cross-contamination issues and ensure caregiver safety as well.

2-4-1

2 scales **4** the price of **1**. Weigh both adults and infants on the same scale. Weigh babies up to 44 pounds and adults up to 400 pounds. The removable tray separates the adult-weighing surface from the baby-weighing surface.

BATTERY POWER

A single 9VDC provides up to 3000 weigh cycles.

OPTIONAL EQUIPMENT

Carrying case

4 YEAR
WARRANTY

MADE IN
THE USA
