

# SR Scales®

*“The Measure of Excellence”*

## Marine Platform Scale Model **SR**® V716W

Weighing dolphins or sea lions? The SRV716W is a large, but mobile platform scale designed to weigh marine mammals. Constructed of heavy duty stainless steel with sealed load cells, the **SR**® marine platform scale is designed to provide years of dependable service.

The scale has round edges to help with animal comfort, ease of lifting, and mobility for trainers. The scale can be quickly and comfortably placed poolside for fast, safe weighing.

The built in readout is equipped with bluetooth wireless capability allowing the scale to be operated remotely with the free **SR Scales**® app.

Whatever your weighing needs may be, **SR Scales**® is *“The measure of Excellence.”*
